

The best choice for any body!

Color enhanced to highlight detail.

"The images from this new MRI are amazing, enabling us to diagnose neurological problems with even greater accuracy."

*Jeff Fecko, MD
SMMC Neurologist*

York County's newest MRI.

Unrivaled diagnostic detail. Available only at SMMC.

As the first new MRI in York County in years, SMMC's MAGNETOM MRI uses the latest technology to provide doctors with detailed images for diagnosing the most complex illnesses from spinal abnormalities and cancer, to injuries to the fine bones of the hands and feet.

- Full body imaging with extraordinary detail ensures fast, highly accurate diagnostic results
- A streamlined patient-friendly design offers faster, more comfortable testing

When your health is the question, you want the very best diagnostic technology and it's here, at SMMC.

If your doctor recommends an MRI, accept nothing but the best.

- Choose a doctor affiliated with SMMC
- Insist that your testing be provided by SMMC

Convenient night and weekend appointments available.

- Monday through Friday, 7am to 10pm
- Saturday and Sunday, 7am to 7pm

To see if your doctor is on SMMC's team, visit smmc.org or call 283-7323.
